

Discussion/Reflection Questions
***Professionally Speaking* October 2007**
Motivation, Incentives, and Competition

- The five questions at the end of the issue provide a good vehicle for discussing or reflecting upon "Motivation, Incentives, and Competition."
- Which of your students seem to need external motivation most? Which seem self-motivated? What factors outside your control may account for the differences? What are factors within your control?
- What motivational techniques have you tried that failed to provide appropriate results? What worked? Was it "appropriate"?
